Selected Requisition and Purchase Order Problems (FY 2008, FY2009)

The fiscal year-end Requisition and Purchase Order Rollover encountered some problems. As a result, several Requisitions and Purchase Orders were incorrectly liquidated in FY2008 and were subsequently incorrectly re-established in FY 2009.

We are aware of the problem and have captured all the Requisitions and Purchase Orders involved. Should you discover an incorrect Pre-encumbered (Requisition) or Encumbered (Purchase Order) balance on your projects, please be assured that we are in the process of correcting these balances.
