As an undergraduate level student who has exhausted all other sources of financial aid available to me, including borrowing the annual maximum Stafford Subsidized and Unsubsidized loan limits, I have decided to apply for an alternative/private loan to cover my remaining cost of education.

Because the alternative/private loan requires credit approval, I understand that I am responsible for contacting a participating lender/servicer in order to initiate the alternative/private loan application process. I also understand that it is recommended that I contact the same lender that I use for my Stafford Loans.

By completing and submitting this form to the Office of Student Financial Aid, I am hereby notifying them of my desire to accept alternative/private loan funds and the lender (indicated below) I will be contacting in order to initiate the alternative/private loan application process.

I understand that the lender will notify the school of the completion of my alternative/private loan application process by submitting a certification request to the school, and that my loan will be processed by the school based on my program's start date.
