APPROVAL SIGNATURES: No “per” signature is permitted on this form.

The undersigned understand that if the award is received, the PI and Department Administrator for the owner department are responsible for tracking recording and documenting the University’s cost sharing contribution. Once the award is received, the department/school will track cost share and in-kind expenses and will transfer revenue to fund the cost share in accordance with established procedures. If in-kind contributions do not materialize, the department/school will bear the hard dollar costs of completing the cost share/match identified to the sponsor in the proposal.
