

**STUDENT DISCOUNT DENTAL PLAN
UNIVERSITY OF MARYLAND BALTIMORE**

This Plan provides discounts on fees for dental treatment to students who are members of the Plan and have paid the flat rate Plan fee. The Plan applies to treatment provided by a student or resident in the Advanced Education in General Dentistry clinic of the Dental School. Plan members must pay for all services at the time treatment is rendered (except for fees covered by the Plan or by a Plan member's dental insurance) but will receive a discount from the AEGD fee schedule. The AEGD fee schedule is 20% to 30% less than the usual and customary fees of dentists in the Baltimore and Washington area. Students in the Plan will receive additional discounts from 20% to 80% depending on the procedure that was performed. Some procedures are not covered by the Plan and are available at standard AEGD fees.

The AEGD Program is an advanced training program for graduate dentists and dental students in advanced techniques. The primary care providers render comprehensive and emergency care including state of the art care in implants, lasers, veneers, teeth whitening, and many other cutting edge technologies. Further information can be obtained from www.dental.umaryland.edu or by calling 410-706-4156.
