

Date: _____

Reported Educational/Work Injury/Needle Stick

Student Name: _____

DOB: _____ Phone Number: _____

The above individual has been assessed by a needle stick provider by phone or in person.

The prescriptions that the patient presents with or has been e-prescribed should be billed to the student's insurance first; if approved by the student's insurance, the student is responsible for the required copay/deductible fee according to his/her insurance plan. Please remind students when presenting the bill that full-time students may submit a claim afterwards for reimbursement under their supplemental UMB accident-only insurance plan (www.gallagherstudent.com/umb).

If there is any delay in approval for payment (including afterhours need for prior authorization), lapse of coverage, or declination of payment by the student's insurance plan, the medications should still be dispensed to the patient and costs up to the full amount of the medication should be filed to the bill group "STUDENT" within the pharmacy processing system. The bill **should not** be presented to the student in these cases. The pharmacy should contact Office of Academic Affairs (OAA) for resolution of the outstanding bill. Contact information is listed below.
