

Office of the Controller Standard Operating Procedure No. 3706			
<b>SOP Title</b>	Research Study Participant Payments	<b>Related Policy No.</b>	<a href="#">UMB VIII-99.00 (B)</a>
<b>Last Updated</b>	September 12, 2022	<b>Refer Questions To</b>	Deputy Controller Office of the Controller 410-706-4439
<b>Approved By</b>	Dawn Rhodes, Senior Vice President, Chief Business and Finance Officer		

**Purpose** This procedure establishes instructions and guidelines for UMB departments to use when compensating research study participants and complying with reconciliation requirements in accordance with UMB policy VIII-99.00 (B).

**Scope** This procedure covers all compensation to research study participants including cash, checks, and gift cards.

- Contents**
- [Addendum – May 4, 2022](#)

      - B. [Accounts Payable Requests](#)
        1. [Gift Cards](#)
        2. [Checks Payable to Participants](#)
  - [Responsibilities](#)
    - I. [Schools and Departments](#)
    - II. [Office of the Controller](#)
    - III. [Department of Sponsored Projects Accounting and Compliance](#)
  - [Terms and Definitions](#)
  - [Exceptions](#)
  - [Forms](#)
  - [Related Training/Guidance](#)

- General Guidelines**
- I. A study participant is a living individual about whom a Principal Investigator (PI) conducting research obtains: 1) data through intervention or interaction with the individual or 2) identifiable private information. Some research studies may provide for compensation payments to study participants as evidenced in the contract between the research sponsor and the research institution. These procedures describe the requirements for requesting funds for making payments to research study participants.
  - II. In all studies that involve cash, check or gift card payments to study participants, a [log](#) should be initiated and maintained by the study

coordinator or his/her designee. The information on the log should include, but need not be limited to:

- A. The total amount and date of each Working Fund or Accounts Payable request related to participant compensation and the initials of the payment verifier
- B. The date of each payment
- C. Participant signature or initials for receipt of each payment (either on the log or as an attachment to the log)
- D. The amount of each payment
- E. For any check delivered to a participant by mail, either a copy of the check or a record of the check number, amount and date, and a record of the address to which the check was sent.

III. Information contained in the log should be segregated by funding request so that payments to study participants can be reconciled to each funding request. The log should be verified, signed, and dated by the PI for each funding request and at the end of each study and kept in the department for audit purposes. Consent documentation and logs are retained in the department. In studies where a code, mask, or other mechanism is used on the log to prevent disclosing the names of participants, the department is required to retain a list of participants' names that corresponds to the recipients on the log.

#### IV. 1099-MISC Reporting

In order to be in compliance with IRS regulations regarding the reporting of income, a 1099-MISC will be produced for any individual who receives checks or gift cards totaling \$600 or more annually in compensation for being a study participant at UMB. In order to facilitate the collection of information:

##### A. Checks

Documentation for any study participant receiving a check of \$100 or greater needs to include the individual's name, address and social security number. This information must be included in the documentation that accompanies the request.

##### B. Gift Cards

1. Any study participant who receives a gift card of \$100 or greater is required to provide his or her name, address, and social security number to the department.
2. The department must create and maintain a spreadsheet that lists any study participant who receives a gift card of \$100 or greater. The information listed on the spreadsheet must correspond to the current calendar year (i.e. reporting period) and include the following information:
  - a. Department Name and Number
  - b. Department Contact Name, Phone Number, and Email Address
  - c. Reporting Period (i.e. January 1, xxxx – December 31, xxxx)
  - d. Recipient Information:
    - i. Name

- ii. Address
  - iii. Social Security Number
  - iv. Amount received
  - v. Date gift card is given to the study recipient
3. The department must submit the spreadsheet to the Director of Disbursements on a monthly basis, no later than the 10<sup>th</sup> day of the month.
    - a. Email the file to [FS-Workingfund@umaryland.edu](mailto:FS-Workingfund@umaryland.edu) via [Secure Encrypted email](#).
  4. Departments are required to properly secure the study participant's name, address, and social security number. Review [UMB Policy X-99.16\(A\) UMB protection of Confidential Information](#) for guidance on safeguarding personal information.
  5. Office of the Controller – Disbursements (OOTC-D) will forward the information to the State General Accounting Division.
- V. The type of compensation and the method of delivery will be used to determine the procedures applied in requesting, delivering, and recording study participant compensation. The following chart summarizes the options:

	Source of compensation	
Type of compensation ↓	Working Fund	Accounts Payable (NONPO Invoice (Check Request))
Cash	✓	
Gift card	✓	✓
Check	✓	✓

- VI. Disbursements of funds for the purpose of purchasing gift cards or distributing cash will be charged to **object 7062 – Cash** - Study Participant Pay-. Amounts charged to this object will not be billed to the sponsor or generate F&A. On a monthly basis, a **debit memo** must be created to credit (reduce) this object and debit (charge) object 3125- Study Participant Pay-Group for the amount of cash or gift cards that have been distributed that month. The log will be the backup and basis for the journal entry.
- VII. All payment requests must include sufficient supporting documentation. The documentation must include at least the study number, dates of the study, payment amounts, method(s), and payment dates, [PI Authorization Form](#), and the **object 7062 report** (if applicable). Refer to the [Required Documentation for Research Study Participant Payment Requests](#).

VIII. Compensation in the form of cash or gift cards should not be mailed to participants.

**Procedures**

**I. Types of Compensation**

**A. General**

1. The type of compensation made to a study participant is determined by the Principal Investigator, the terms of the grant/contract, and the Institutional Review Board (IRB), if applicable.
2. Each type of compensation requires specific reporting and reconciliation requirements to ensure the propriety of the compensation and safeguarding of the assets.

**B. Cash**

1. Purpose of request- A check request is made for a lump sum amount. The department cashes the check so that smaller amounts of cash can be distributed to study participants.
2. Requests for cash can be made through the General Working Fund via a **Quantum Financials NONPO Invoice**.
3. A cash/card count sheet is used to record the initial request for cash, disbursements to study participants, and cash inventory.
4. An individual in the department other than the individual who cashed the check must perform an initial count of the cash, verify the amount against the check request, record the amount on the cash count sheet, and then sign and date the cash count sheet.
5. The cash should be stored in a secured location with restricted access (e.g. safe, locked drawer).
6. The study coordinator must maintain a separate log for each lump sum cash request.
7. The cash inventory should be counted whenever cash is added to the inventory or, at a minimum, on a monthly basis. In conjunction with the cash count, the department must process a journal entry to reclassify the amount distributed from **object 7062** to 3125 (see General Guidelines VI).
  - a. The cash count should be performed by a person in the department who is familiar with these procedures but is not directly associated with the study and who does not have access to the funds. The person performing the count must record the results of the count and sign and date the [Cash/Card Count](#) document. The results of the cash count should be compared to the calculated amount that should be on hand (check request amount less amount distributed per log).
  - b. Any discrepancies must be investigated and resolved. Any unexplained differences must be reported in writing to the

department chair and/or Dean, and to the directors of the Departments of Management Advisory Services, Office of the Controller, and Sponsored Projects Accounting and Compliance.

- c. Click [HERE](#) for an example of a document to record the cash count. Departments that create custom cash count documents must include at least all of the information that is contained in the sample [Cash/Card Count](#) document.
8. Once all cash from each lump sum cash request has been distributed:
  - a. The Principal Investigator must verify, sign, and date the log, confirming the [validity of the participants](#) and the amounts and dates of the cash distributed. The log must clearly indicate the amount of any undistributed cash.
  - b. A reconciliation must be completed that is verified, signed, and dated by the preparer, the department administrator (or designee), and the Principal Investigator. Click [HERE](#) for an example of documentation of a reconciliation.
9. At the end of each study, the complete study participant log must be verified, signed, and dated by the Principal Investigator; and a final reconciliation of all cash paid must be completed that is verified, signed, and dated by the preparer, the department administrator (or designee), and the Principal Investigator. Click [HERE](#) for an example of documentation of a reconciliation.
10. Any undistributed cash must be deposited back into the UMB bank account and credited to the study project, via the UMB Cashier's Office, within 30 days of the end of the study. If the part of the study involving compensation to participants ends significantly earlier than the end of the study project then the best practice would be to deposit the undistributed cash earlier.

### C. Gift Cards

1. Gift card requests can be made through the Gift Card System (GCS), General Working Fund, or Accounts Payable.
2. The GCS is the preferred method. However, departments may request a check from the General Working Fund or Accounts Payable for a lump sum amount to be used to purchase gift cards in smaller amounts that can be distributed to study participants.
3. Electronic gift cards ("e-Gift Cards") may be purchased through a UMB contracted supplier (i.e. vendor). A list of contracted supplier(s) is available on the [Disbursements webpage](#). Submit a [NONPO Invoice](#) to request a check made payable to the supplier. Supporting documentation must be submitted to [NONPO Invoice Supporting Documentation Submission Webform](#). The department is responsible for delivering the check to the supplier.

e-Gift Cards are subject to the same controls and requirements that apply to physical gift cards as described in this Procedure including: restricted access, inventory counts, reconciliations, journal entries, providing social security numbers when issuing cards in denominations of \$100 or more, and Principal Investigator certification on logs and reconciliations.

It is the department's responsibility to ensure that delivery through email does not compromise the privacy of the participant. The department and UMB will not replace vouchers delivered by email that are misappropriated by persons other than the study participant who have access to the email address provided by the study participant.

4. Under no circumstances can a [UMB Corporate Purchasing Card](#) (i.e. P-Card) be used to purchase gift cards.
5. A cash/card count sheet is used to record the initial request for gift cards, disbursements to study participants, and gift card inventory.
6. An individual in the department other than the individual who acquired the gift cards (i.e. from the supplier or from the GCS) must perform an initial count of the gift cards, verify the amount against the check/GCS request, record the amount on the cash/card count sheet, and then sign and date the cash/card count sheet.
7. The gift cards should be stored in a secured location with restricted access (e.g. safe, locked drawer).
8. The study coordinator must maintain a separate log for each gift card request.
9. Submit 1099-MISC reporting information as described in General Guidelines - Section II.
10. The gift card inventory should be counted whenever gift cards are added to the inventory or, at a minimum, on a monthly basis. In conjunction with the gift card count, the department must process a journal entry to reclassify the amount distributed from **object 7062** to 3125 (see General Guidelines VI).
  - a. The gift card count should be performed by a person in the department who is familiar with these procedures but is not directly associated with the study and who does not have access to the funds. The person performing the count must record the results of the count and sign and date the [Cash/Card Count](#) document. The results of the gift card count should be compared to the calculated amount that should be on hand (check request amount less amount distributed per log).
  - b. Any discrepancies must be investigated and resolved. Any unexplained differences must be reported in writing to the department chair and/or Dean, and to the directors of the

Departments of Management Advisory Services, Office of the Controller, and Sponsored Projects Accounting and Compliance.

- c. Click [HERE](#) for an example of a document to record the gift card count. Departments that create custom cash/card count documents must include at least all of the information that is contained in the sample [Cash/Card Count](#) document.
11. Once all gift cards from each gift card request has been distributed:
    - a. The Principal Investigator must verify, sign, and date the log, confirming the [validity of the participants](#) and the amounts and dates of the gift cards distributed. The log must clearly indicate the amount of any undistributed gift cards.
    - b. A reconciliation must be completed that is verified, signed, and dated by the preparer, the department administrator (or designee), and the Principal Investigator. Click [HERE](#) for an example of documentation of a reconciliation.
  12. At the end of each study, the complete study participant log must be verified, signed, and dated by the Principal Investigator; and a final reconciliation of all gift cards paid must be completed that is verified, signed, and dated by the preparer, the department administrator (or designee), and the Principal Investigator. Click [HERE](#) for an example of documentation of a reconciliation.
  13. There must be an accounting for the disposition of any undistributed gift cards. This should be done within 30 days of the end of the study. If the part of the study involving compensation to participants ends significantly earlier than the end of the study project, the best practice would be to complete the accounting for the gift cards earlier. If there are unused gift cards when the study is completed, they must be:
    - a. transferred via **debit memo** to another research study project that is active. Documentation to support the change in custody and /or accountability of the gift cards must be maintained.

OR

    - b. purchased using a non-UMB funding source. This may include purchases by employees, including the principal investigator, but only as a last resort. Payments received must be deposited and credited back to the study project. Sufficient documentation must be maintained by the department for these transactions.

#### **D. Checks Payable to Participants**

1. Purpose of request- A check request for a specific amount made payable to a study participant and delivered in person or by mail.
2. The study coordinator must maintain a log, and other documentation as necessary, for all checks issued to study participants. The log (or

other documentation) must indicate how and when each check was delivered directly or mailed to the participant.

3. Once all checks from each request have been distributed, the Principal Investigator must verify, sign, and date the appropriate documentation that confirms the [validity of the participants](#), and the amounts and dates of the checks distributed.
4. Any undistributed checks to study participants should be returned to Office of the Controller - Working Fund within 30 days of the end of the study so that the checks can be voided and credited back to the study project. If the part of the study involving compensation to participants ends significantly earlier than the end of the study project, the best practice would be to return the undistributed checks earlier.

## II. Sources of Compensation

### A. Working Fund

#### 1. Request for Cash

- a. A **NONPO Invoice** is completed for a lump sum amount. Supporting documentation from the part of the grant/contract authorizing funds for payment to study participants, [the PI Authorization Form](#), and the Quantum Analytics printout showing the activity in object number 7062 must be submitted to the [NONPO Invoice Supporting Documentation Submission Webform](#). Refer to General Guidelines VII.
- b. The **NONPO Invoice should be fully approved** at least three (3) days in advance of the date the check is needed in the department.
- c. The check should be made payable to a designated person from the department who did not sign the request form. Checks will not be made payable to "Cash".
- d. This type of payment should be charged to the sponsored project ID using **object 7062 - Cash** - Study Participant Pay.
- e. The payee (or someone else not associated with the study) should pick up the check from FS-WF, cash the check, and deliver the cash back to the department. The cash must be recorded on the Cash/Card Count document, dated, and initialed by another individual.
- f. On a monthly basis, the department must complete a **debit memo** that debits 3125 and credits **7062** for the amount of cash that has actually been disbursed to study participants (see General Guidelines VI).

- g. OOTC-WF will not fulfill additional Study Participant payment requests for the specified project until this **debit memo** has been completed. For studies that require multiple requests, a reasonable balance in **7062** will be acceptable, to allow for continuity.
- h. A grant will not be closed by Sponsored Projects Accounting and Compliance (SPAC) if there is a balance in **object 7062**.

## 2. Request for Gift Cards

### a. Gift Card System

- i. A Study Participant Payments Gift Card Request form is completed for a lump sum amount. Documentation from the part of the grant/contract authorizing funds for payment to study participants and the **Quantum Analytics** printout showing the activity in **object 7062** should accompany the request. Refer to General Guidelines VII.
- ii. Log into the Gift Card System (GCS) and select the desired gift cards.
- iii. Upload the following documents into the GCS:
  - Study Participant Payments Gift Card Request Form.
  - Documentation from the part of the grant/contract authorizing funds for payment to study participants.
  - **Quantum Analytics** printout showing the activity in the **object 7062**.
- iv. Orders should be placed in the GCS at least three (3) days in advance of the date the gift cards are needed in the department.
- v. This type of payment should be charged to the sponsored project ID using **object 7062 - Cash** - Study Participant Pay.
- vi. A person not associated with the study should pick up the gift cards at the Cashier's Office and deliver the gift cards back to the department.
- vii. On a monthly basis, the department must complete a **debit memo** that debits 3125 and credits **7062** for the amount of cash that has actually been disbursed to study participants (see General Guidelines VI).

### b. Check Request

- i. A **NONPO Invoice** is completed for a lump sum amount. Supporting documentation from the part of the grant/contract authorizing funds for payment to study participants, [the PI Authorization Form](#), and the Quantum Analytics printout showing the activity in object number 7062 must be

submitted to the [NONPO Invoice Supporting Documentation Submission Webform](#). Refer to General Guidelines VII.

- ii. The **NONPO Invoice should be fully approved** at least three (3) days in advance of the date the check is needed in the department.
  - iii. There are two possible payees on the check:
    - Department designee – a person from the department who did not **approve the NONPO Invoice** picks up the check from OOTC-WF, cashes it, and takes the cash to the store to purchase the gift cards. Checks will not be made payable to “Cash”.
    - The supplier from which the gift cards will be purchased.
  - iv. This type of payment should be charged to the sponsored project ID using **object 7062 – Cash** - Study Participant Pay.
  - v. The payee (or someone else not associated with the study) should pick up the check from OOTC-WF, purchase the gift cards, and deliver the gift cards back to the department. The gift cards must be recorded on the Cash/Card Count document, dated, and initialed by another individual.
  - vi. The original receipt from the supplier where the gift cards were purchased should be retained in the department.
- c. On a monthly basis, the department must complete a **debit memo** that debits 3125 and credits **7062** for the value of the gift cards that have actually been given to study participants (see General Guidelines VI).
- d. OOTC-WF will not fulfill additional study participant payment requests for the specified project until this **debit memo** has been completed. For studies that require multiple requests, a reasonable balance in 7062 will be acceptable, to allow for continuity.
- e. A grant will not be closed by Sponsored Projects Accounting and Compliance (SPAC) if there is a balance in **object 7062**.
3. **Request for checks payable to participants**
- a. A **NONPO Invoice** is completed. Documentation from the part of the grant/contract authorizing funds for payment to study participants **and the PI Authorization Form** must be submitted to the [NONPO Invoice Supporting Documentation Submission Webform](#). This documentation should not disclose any protected health information about the participants beyond the minimum information needed to process the request. Refer to General Guidelines VII.

- b. The **NONPO Invoice** should be **fully approved** at least five (5) days in advance of the date the check is needed in the department.
- c. The **NONPO Documentation** should include an attachment with the list of names of the study participants and the amount of each check. If amounts are for \$100 or more then the address and social security number of each payee must be included.
- d. This type of payment should be charged to the sponsored project ID using **object 3130**- Study Participant Pay-Indiv.
- e. The study coordinator should pick up the checks from OOTC-WF and deliver the checks back to the department.

## B. Accounts Payable (AP) Requests

### 1. Request for Gift Cards

- a. Complete the **NONPO Invoice** payable to a department designee who did not sign the request form.
- b. Submit documentation from the part of the grant/contract authorizing funds for payment to study participants and the **Quantum Analytics** printout showing the activity in **object 7062** to the **NONPO Invoice Supporting Documentation Submission Webform**. Refer to General Guidelines VII.
- c. This type of payment should be charged to the sponsored project ID using **object 7062 - Cash** - Study Participant Pay.
- d. Payees will receive a check mailed directly from the State of Maryland Treasurer's Office. It can take up to three (3) weeks from the date the request was received by OOTC-AP for the recipient to receive the check.
- e. The payee purchases the gift cards from the supplier and delivers the gift cards back to the department.
- f. The original receipt(s) from the supplier where the gift cards were purchased should be retained in the department.
- g. On a monthly basis, the department must complete a **debit memo** that debits 3125 and credits **7062** for the amount of gift cards that has actually been disbursed to study participants (see General Guidelines VI).
- h. OOTC-AP will not fulfill additional study participant payment requests until this **debit memo** has been completed. For studies that require multiple requests, a reasonable balance in **7062** will be acceptable, to allow for continuity.
- i. A grant will not be closed by Sponsored Projects Accounting and Compliance (SPAC) if there is a balance in **object 7062**.

2. **Request for checks payable to study participants**

- a. Complete a **NONPO Invoice** for each participant's name including address and social security number.
- b. This type of payment should be charged to the sponsored project ID using object 3130- Study Participant Pay-Indiv.
- c. Attach documentation from the part of the grant/contract authorizing funds for payment to study participants. Refer to General Guidelines VII.
- d. Payees will receive a check mailed directly from the State of Maryland Treasurer's Office. It can take up to three (3) weeks from the date the request was received by OOTC-AP for the recipient to receive the check.

**Responsibilities I. Schools and Departments**

- A. Maintain appropriate segregation of duties and internal control procedures.
- B. Maintain log(s) of study participants and ensure that the Principal Investigator verifies, signs, and dates all log(s). By signing the log(s), the Principal Investigator confirms the [validity of the participants](#).
- C. Maintain required documentation as described in this Procedure to comply with IRS reporting. Timely submit documentation to Office of the Controller – Disbursements.
- D. Ensure that funding is available for the requested expenditure.
- E. Keep all appropriate documentation in the department.
- F. Reconcile each working fund request and ensure that the reconciliations are verified, signed, and dated by the preparer, departmental administrator (or designee), and Principal Investigator. By signing the reconciliations, the preparer, departmental administrator (or designee), and Principal Investigator confirm that the study participant funds have been properly accounted for according to appropriate policies and procedures.
- G. Maintain the security of all cash, gift cards, and checks under their control. Only a limited number of individuals should have access to cash, gift cards, or checks. Funds must be secured (e.g. lockbox or safe with a combination code that can be changed as needed to restrict access).
- H. Have an individual not directly involved in the study submit monthly **debit memos** to reclassify amounts charged to the Cash - Study Participant Pay object as cash or gift card payments are disbursed.

- I. Ensure that all departmental employees involved in the study participant payment process have been trained in HIPAA requirements and observe those requirements in interactions with participants and other UMB employees.
- II. Office of the Controller**
  - A. Apply due diligence that all supporting documentation is submitted along with each request.
  - B. Working Fund retains original and backup documentation for each Working Fund request.
  - C. Timely report 1099-MISC information to the State General Accounting Division.
  - D. Oversee Gift Card System functions and manage the GCS.
  - E. Ensure that all OOTC employees involved in the study participant payment process have been trained in HIPAA requirements and observe those requirements in interactions with participants and other UMB employees.
- III. Department of Sponsored Projects Accounting and Compliance**
  - A. Notify departments if there is a balance in **object 7062** after the end date of the grant.
  - B. Prevent the closing of a grant unless **object 7062** has a \$0 balance.

**Terms and Definitions**

Term	Definition
Principal Investigator	The individual who bears the ultimate responsibility for assuring that the conduct of a research study complies with all UMB policies and procedures.
Reconciliation	A formal document that summarizes the funds received, distributed and remaining. Interim reconciliations should be signed and dated by the preparer. Final reconciliations should be reviewed, signed and dated by the preparer, department administrator (or designee), and Principal Investigator.
Study Coordinator	The individual who assumes administrative responsibility for insuring payments made to participants are in accordance with UMB policy and procedures.
Study Participant Log	The official record of payments to study participants. The information on the log should include, but need not be limited to: <ol style="list-style-type: none"> <li>1. The total amount and date of each Working Fund or Accounts Payable request related to participant compensation and the initials of the payment verifier</li> <li>2. The date of each payment</li> <li>3. Participant signature or initials for receipt of each payment (either on the log or as an attachment to the log)</li> <li>4. The amount of each payment</li> <li>5. For any check delivered to a participant by mail, either a copy of the check or a record of the check number, amount and</li> </ol>

	date, and a record of the address to which the check was sent.
Validity of the Participants	The process for providing reasonable assurance that payments are only made to individuals who are enrolled in the research study. The Study Participant Log must be compared to the research study records to validate that people listed on the log are valid study participants. The method that is used to test the validity should be documented. The Principal Investigator is responsible for confirming the validity of the participants.
Verify	To confirm the truth and accuracy by calculation, examination, investigation and/or comparison.
Working Fund	A checking account set up by Office of the Controller to facilitate payments where procurement procedures are not required. Checks are issued from a bank account in the name of UMB and reimbursed by the state through the General Accounting Division process.

**Exceptions**

Exceptions to these procedures must be approved in writing by the University Controller (UC). All requests must be submitted to the UC using the [Policy or Procedure Exception Request Form](#) available on the Financial Services website. The request must be signed/e-mailed by the Department Head or designee.

Exceptions to the related policy, [UMB VIII-99.00\(B\) Research Study Participant Payments](#) must be approved in writing by the Chief Business and Finance Officer. Exceptions requests may be submitted to the UC using the [Policy or Procedure Exception Request Form](#). Policy exception requests must be signed by the appropriate Dean/Vice President or Associate Dean/AVP.

**Forms**

Forms can be obtained from the Financial Services website:  
<http://www.umaryland.edu/financialservices/forms/>

Office of the Controller Standard Operating Procedure No. 3706 - - Addendum			
SOP Title	Research Study Participant Payments	Related Policy No.	<a href="#">UMB VIII-99.00 (B)</a>
Last Updated	May 4, 2022	Refer Questions To	Director, Disbursements 410-706-2931
Approved By	Dawn Rhodes, Senior Vice President, Chief Business and Finance Officer		

This addendum is incorporated into the Office of the Controller Standard Operating Procedure No. 3706 on Research Study Participant Payments.

**Part One – State Requirement for Fully Disbursed Research Study Participant Logs**

The State requires copies of fully disbursed research study participant logs before the State will replenish our Working Fund bank account cash balance.

1. General Working Fund (GWF) checks for cash and gift card disbursements must be fully disbursed within 60 days of the check date.
2. The fully disbursed and completed study participant log showing the disbursements to study participants must be emailed to [fs-workingfund@umaryland.edu](mailto:fs-workingfund@umaryland.edu) within 60 days of the check date. The total amount disbursed must equal the amount of the check.
3. If the full amount of the GWF check has not been fully disbursed within 60 days of the check date, any remaining amount must be resolved within the 60-day timeframe as follows:
  - a. Cash  
Undisbursed cash must be deposited at the Cashier’s Office and the cashier’s receipt must accompany the completed study participant log. Instructions for depositing cash are located here: <https://www.umaryland.edu/student-financial-services/university-cashier/#d.en.504215>
  - b. Gift Cards  
Remaining gift cards can be transferred to another project (preferred) or purchased using personal funds. Evidence of the transfer or purchase must accompany the completed research study participant log.
4. Email all documentation to [fs-workingfund@umaryland.edu](mailto:fs-workingfund@umaryland.edu). The total of the amount disbursed and supplemental documents must equal the original GWF check amount.
5. If a department has outstanding GWF checks for more than 60 days, subsequent GWF check requests for cash or gift cards will be denied until the outstanding checks are resolved.
6. Checks that remain outstanding for 90 days will be charged to the department’s revolving SOAPF.

**Part Two – Voided and Reissued GWF Checks**

Due to system changes in processing GWF checks, checks cannot be reissued using the original NONPO Invoice.

1. Complete the [Working Fund Check Void Form](#).
2. Submit a new NONPO Invoice.
  - a. Include a comment in the invoice description indicating the invoice is a reissue request and include the original invoice number.
  - b. Provide all supporting documentation using the [NONPO Invoice Supporting Documentation Submission Webform](#).

**Part Three – Check Limits**

Departments should make every effort to effectively strategize cash and gift card disbursements to avoid outstanding GWF checks for more than 60 days and to keep cash and gift card inventories at a minimum.

1. A GWF check request for cash or gift card disbursements cannot exceed \$5,000.00. If the study requires large amounts of cash or gift cards, contact [fs-workingfund@umaryland.edu](mailto:fs-workingfund@umaryland.edu) for guidance.
2. Cash and gift card inventories are subject to inspection by Administration and Finance.
3. A GWF check request to an individual participant that is over \$1,000 will be paid through the State payment process rather than the GWF and will be subject to the State Intercept Program. Any State payment made to a participant who has an outstanding debt to the State or federal government could be intercepted and applied to that debt. This information should be disclosed to the research study participants accordingly.
