How to Change the Quantum Analytics Default Report Time Setting

The default time setting for reports generated in Quantum Analytics can be set by end users.

Here are the steps to change that setting:

1) Open Quantum Analytics
2) Select the drop down arrow next to your name (top right side)
3) Select the My Account option
4) In the Preferences tab, click the drop down arrow for Time Zone
5) Select (GMT-5:00) Eastern Time (US & Canada)
6) Click OK

Reports will now reflect the EST time zone.

Tip: Drag the scroll bar to the bottom of the list to bring (GMT-5:00) Eastern Time (US & Canada) into view.
