STRENGTHENING WEST BALTIMORE THROUGH POWERFUL PARTNERSHIPS

The University of Maryland, Baltimore’s (UMB) students, faculty, staff, and friends have long engaged meaningfully with our neighbors. The University has deployed its assets, expertise, and influence to make a significant and sustained difference in West Baltimore. We now seek philanthropic partners who share the desire to create a lasting and positive impact on our common community.

Join UMB and these organizations already working — and investing — in our Community Campus.

CHARITABLE INVESTMENT DRIVES PROGRESS

As our Community Campus continues to blossom, UMB invites thoughtful philanthropy to support the human capital, initiatives, and facilities necessary to develop and expand vital services. In addition to generating gift support to help fund programs and services, we aim to sustain and undergird the UMB Community Engagement Center for the long term. Additionally, we invite the collaboration of donors and funders with an interest in supporting UMB’s partnership with the United Way and other area nonprofits to provide family-focused programs and services on the Community Campus.

We earnestly encourage your partnership in and commitment to this meaningful venture, and we sincerely hope you will join the growing number of UMB Community Campus benefactors deeply committed to transforming the lives of children and families in one of Baltimore’s resilient communities.
