

2026 Global Scholar Program Application

1. Full Name
2. Email Address
3. Student ID Number
4. What University of Maryland, Baltimore school do you attend?
 - Carey School of Law
 - School of Nursing
 - School of Dentistry
 - School of Pharmacy
 - School of Graduate Studies
 - School of Social Work
 - School of Medicine

For School of Medicine applicants only: Are you proposing to use this program to support participation in an ambulatory care rotation? If Yes, please email [Bailey Jenkins](#) for more information.

5. Degree Program
6. Scholarships are only available for students who will be enrolled full-time or part-time at the time of the project. Will you be an enrolled full- or part-time student at the time of the project you are proposing?

About Your Project

7. For marketing, it helps if projects have succinct titles. Please share the title of your project project. Some examples are below: Understanding Plastic Recycling in Costa Rica, The Role of Play Therapy in a Korean Population in an Arizona Nursing Home, Mobile Clinics in South Africa: Similarities to Baltimore.
8. Where will you conduct your research, service, or learning project? Projects in the US are fine as long as there is a global/universal element to the project.
9. When do you plan to conduct your research, service, or learning project (include month/s and year)? All projects must be completed by the end of the Fall 2026 semester.
10. Describe your proposed project in depth (max 500 words) including:
 - What you plan to do for your project
 - A timeline of project activities, including preparation (e.g., confirming participation with host organization, buying airfare, etc.), as appropriate
 - What outcomes you expect to have. Examples of outcomes include collection of data that can be used for a paper, capstone, or dissertation; further exploration of a topic researched for a course; field research, interviews, or site visits; participation in a training or learning program;

novel analysis of an existing dataset; preparation of a critical self-reflection memo appropriate for publication, etc.

11. How does your project align with your professional/career interests and advance your learning? (200 words max)
12. Are you working with an organization? When working with an organization is possible, it is helpful since organizations can facilitate workflow, create more sustainable impacts by contributing to local capacity building, and disseminate results. For that reason, applicants are strongly encouraged to affiliate with a reputable organization to conduct their project.
 - What is the name of the organization?
 - How did you learn about the organization?
 - Have you reached out to the organization and determined whether they support your visit?
 - Why are you choosing to work with this organization?
 - Describe the organization and its impact on the community.
13. How will the findings of your project be shared with the community?
14. Does your plan involve human subjects research? If you are unsure, please review [this link](#) which describes when IRB approval is needed. If yes, please share your plan to secure IRB approval or be added to an existing IRB approval.

UMB Supervisor Information

15. Name (This could be your advisor, a mentor, a professor, or the Student Affairs Dean.)
16. Supervisor Title
17. Supervisor Email
18. Please upload a copy of the [Supervisor Approval Form](#). Your supervisor is welcome to paste the text into an email and send to [Nick Cortina](#).
