

Global Courses at UMB

Spring 2026

This page provides a list of courses across all seven UMB schools that focus on global issues or integrate global content. This list is updated regularly as CGE becomes aware of new course offerings.

Students interested in any of these courses should check the [schedule of classes](#) to learn more and/or consult with relevant officials in their UMB school (e.g., registration office, academic advisor, student affairs office, etc.) to receive advice about whether the course counts towards their degree requirements and procedures to register.
