

Holistic Allied Healthcare Associates

Our Mission: “We engage patients in proactive healthcare while providing compassionate, patient focused, and superior health services. In our work we transform the world of healthcare by valuing diversity, inspiring wellness, and working directly with our surrounding community.”

About: Holistic Allied Healthcare Associates is an organization dedicated to placing the health and welling of our patients first! We are proud of our Baltimore heritage and dedicate our work to improving the health and wellbeing of the city around us. We view every aspect of a patient’s health as vital and therefore provide a broad range of services such as primary medical care, behavioral health services, dental care, and pharmacy services. We are also proud of our research division, which works alongside the NIH to create cures for the future. With over 40,000 patients annually, we are proud of the relationships we have built with our community and hope to improve the lives of our patient’s one checkup at a time.
