IRB Consults Available

Do you need assistance with your IRB protocol design, scientific and regulatory issues, or personalized research guidance for human research studies?

Click [HERE](#) to schedule a meeting with an IRB Vice Chair for expert support.

Maintaining Accurate Study Team Records

When study team members are no longer involved in a protocol, please remember to submit a modification to remove them from the study team. Keeping this information up to date helps ensure that study team records remain accurate and current.

Reminder for Reviewing IRB Applications and Administrative Modifications

Prior to submitting any IRB application, please take time to review all sections for completeness and consistency. Ensure that every question has been fully answered and that information aligns across the application.

When reviewing administrative modifications, please be sure to read the entire query carefully. In some cases, you may need to click “see more” to view the full request. It is important to review all details thoroughly and respond to each component of what is being asked.

CALL FOR IRB MEMBERS

The UMB IRB is seeking new membership.

Prior IRB experience is not necessary. Full orientation and training will be provided.

If you or someone you know is interested in joining UMB’s IRB, please email HRPO@umaryland.edu with the subject “IRB Volunteer”.
