

Intercultural Leadership Competencies for Global Collaboration

Interprofessional & International Online Elective Course (1 credit)
Spring 2021

COURSE DESCRIPTION

In this course, health profession students from the University of Maryland Baltimore and the Bahiana School of Medicine and Public Health (Brazil) will learn about cultural awareness, cross-cultural communication, cross-cultural ethics, global health promotion, relationship building, transcultural evaluation tools, and cross-cultural crisis management.

OVERALL GOAL

The overall goal of this course is to offer an intercultural, interprofessional and collaborative learning environment where students will be exposed to different perspectives and share their experiences in health care and health promotion in different contexts developing a sense of responsibility as local and global citizens, and understanding how to apply what they will learn in their respective professions as they practice in the local communities and collaborate globally.
