Lactation Breaks

1018.1 PURPOSE AND SCOPE
The purpose of this policy is to provide reasonable accommodations to members desiring to express breast milk for the member’s infant child.

1018.2 POLICY
It is the policy of the University of Maryland, Baltimore Police Department to provide, in compliance with the Fair Labor Standards Act (FLSA), reasonable break time and appropriate facilities to accommodate any member desiring to express breast milk for her infant nursing child up to one year after the child’s birth (29 USC § 207). This policy is also consistent with the University of Maryland Baltimore’s policy on lactation support for nursing mothers (UMB Policy VI-1.01A).

1018.3 LACTATION BREAK TIME
A rest period should be permitted each time the member has the need to express breast milk (29 USC § 207). In general, lactation breaks that cumulatively total 30 minutes or less during any four-hour work period or major portion of a four-hour work period would be considered reasonable. However, individual circumstances may require more or less time.

Lactation breaks, if feasible, shall be taken at the same time as the member’s regularly scheduled rest or meal periods. While a reasonable effort will be made to provide additional time beyond authorized breaks, any such time exceeding regularly scheduled and paid break time will be unpaid.

Members desiring to take a lactation break shall notify their supervisor prior to taking such a break. Such breaks may be reasonably delayed if they would seriously disrupt department operations.

Once a lactation break has been approved, the break shall not be interrupted except for emergency or exigent circumstances.

1018.4 PRIVATE LOCATION
The Department will make reasonable efforts to accommodate members with the use of an appropriate room or other location to express milk in private. Such room or place should be in proximity to the member’s work area and shall be other than a bathroom or toilet stall. The location must be shielded from view and free from intrusion from co-workers and the public (29 USC § 207).

To assist in providing accommodations, the University of Maryland Baltimore (UMB) has a designated seven Lactation Centers throughout the campus. Any nursing mother who is a UMB affiliate (faculty, staff, student, or their breastfeeding spouse/domestic partner) can use this service offered by the UMB Wellness Hub. The lactation rooms are available on a first-come, first serve basis.
Lactation Breaks

Members occupying such private areas shall either secure the door or otherwise make it clear to others that the area is occupied with a need for privacy. All other members shall avoid interrupting a member during an authorized break, except to announce an emergency or other urgent circumstance.

Authorized lactation breaks for members assigned to the field may be taken at the nearest appropriate private area.

1018.5 STORAGE OF EXPRESSED MILK
Any member storing expressed milk in any authorized refrigerated area within the Department shall clearly label it as such and shall remove it when the member’s shift ends.
