422.1 PURPOSE AND SCOPE

The University of Maryland, Baltimore Police Department has equipped marked law enforcement vehicles with Mobile Audio Video (MAV) recording systems to provide records of events and to assist officers in the performance of their duties. This policy provides guidance on the use of these systems.

422.1.1 DEFINITIONS

Definitions related to this policy include:

Activate - Any process that causes the MAV system to transmit or store video or audio data in an active mode.

In-car camera system and MAV system - Synonymous terms that refer to any system that captures audio and video signals, that is capable of installation in a vehicle, and that includes at a minimum, a camera, microphone, recorder and monitor.

MAV technician - Personnel certified or trained in the operational use and repair of MAVs, duplicating methods, storage and retrieval methods and procedures, and who have a working knowledge of video forensics and evidentiary procedures.

Recorded media - Audio-video signals recorded or digitally stored on a storage device or portable media.

422.2 POLICY

It is the policy of the University of Maryland, Baltimore Police Department to use mobile audio and video technology to more effectively fulfill the mission of the Department and to ensure these systems are used securely and efficiently.

422.3 OFFICER RESPONSIBILITIES

Prior to going into service, each officer will properly equip him/herself to record audio and video in the field. At the end of the shift, each officer will follow the established procedures for providing to the Department any recordings or used media and any other related equipment. Each officer should have adequate recording media for the entire duty assignment. In the event an officer works at a remote location and reports in only periodically, additional recording media may be issued. Only University of Maryland, Baltimore Police Department identified and labeled media with tracking numbers is to be used.

At the start of each shift, officers should test the MAV system's operation in accordance with manufacturer specifications and department operating procedures and training.

System documentation is accomplished by the officer recording his/her name, serial number, badge or personal identification number (PIN) and the current date and time at the start and again

at the end of each shift. If the system is malfunctioning, the officer shall take the vehicle out of service unless a supervisor requests the vehicle remain in service.

422.4 ACTIVATION OF THE MAV

The MAV system is designed to turn on whenever the vehicle's emergency lights are activated. The system remains on until it is turned off manually. The audio portion is independently controlled and should be activated manually by the officer whenever the officer (Md. Code CJ § 10-402):

- (a) Initially lawfully detains a vehicle during a criminal investigation or for a traffic violation.
- (b) Is a party to the oral communication.
- (c) Has been identified as a law enforcement officer to the other parties of the oral communication prior to any interception.
- (d) Informs all other parties to the communication of the interception at the beginning of the communication, and the oral interception is being made as part of a video tape recording.

422.4.1 REQUIRED ACTIVATION OF THE MAV

This policy is not intended to describe every possible situation in which the MAV system may be used, although there are many situations where its use is appropriate. An officer may activate the system any time the officer believes it would be appropriate or valuable to document an incident.

The video portion of the MAV system should be activated and the audio portion turned off in any of the following situations unless prior consent is obtained by all parties:

- (a) All field contacts involving actual or potential criminal conduct within range:

Activation of the MAV system is not required when exchanging information with other officers or during breaks, lunch periods, when not in service or actively on patrol.

422.4.2 CESSATION OF RECORDING

Once activated, the MAV system should remain on until the incident has concluded or as long as is legally acceptable. For the purpose of this section, conclusion of an incident has occurred when all arrests have been made, arrestees have been transported and all witnesses and victims have been interviewed. Recording may cease if an officer is simply waiting for a tow truck or a family member to arrive, or in other similar situations.

No member of this department may surreptitiously record a conversation of any other member of this department except with a court order or when lawfully authorized by the Chief of Police or the authorized designee.

422.4.4 SUPERVISOR RESPONSIBILITIES

Supervisors should determine if vehicles with non-functioning MAV systems should be placed into service. If these vehicles are placed into service, the appropriate documentation should be made, including notification of Communications.

At reasonable intervals, supervisors should validate that:

The media may need to be treated as evidence and should be handled in accordance with current evidence procedures for recorded media.

Supervisors may activate the video of the MAV system remotely to monitor a developing situation, such as a chase, riot or an event that may threaten public safety, officer safety or both, when the purpose is to obtain tactical information to assist in managing the event. Supervisors shall not remotely activate the MAV system for the purpose of monitoring the conversations or actions of an officer.
